

**PRINCIPLES AND OBJECTIVES FOR COMMUNITY RELATIONS**

Successful education programs require the support of the school district community. The board addresses the importance of the role of the school district community in the school district in this series of the policy manual. The board recognizes this support is dependent on the school district community's understanding of participation in the efforts, goals, problems and programs of the school district.

In this section, the board sets out its policies defining its relationship with the school district community. In striving to obtain the support of the school district community, the board will:

- Provide access to school district records;
- Inform the school district community of the school district's goals, objectives, achievements, and needs;
- Invite the input of the school district community; and,
- Encourage cooperation between the school district and the school district community.

**PUBLIC CONDUCT ON SCHOOL PREMISES**

The board expects that students, employees and visitors will treat each other with respect, engage in responsible behavior, exercise self-discipline and model fairness, equity and respect. Individuals violating this policy will be subject to discipline. Students will be disciplined consistent with the student conduct policies. Employees will be disciplined consistent with employee discipline policies and laws. Others will be subject to discipline according to this policy.

Individuals are permitted to attend school sponsored or approved activities or visit school premises only as guests of the school district, and, as a condition, they must comply with the school district's rules and policies. Individuals will not be allowed to interfere with or disrupt the education program or activity. Visitors, like the participants, are expected to display mature, responsible behavior. The failure of individuals to do so is not only disruptive but embarrassing to the students, the school district and the entire community.

To protect the rights of students to participate in the education program or activities without fear of interference or disruption and to permit the school officials, employees and activity sponsors and officials to perform their duties without interference or disruption, the following provisions are in effect:

- Abusive, verbal or physical conduct of individuals directed at students, school officials, employees, officials and activity sponsors of sponsored or approved activities or at other individuals will not be tolerated.
- Verbal or physical conduct of individuals that interferes with the performance of students, school officials, employees, officials and activity sponsors of sponsored or approved activities will not be tolerated.
- The use of vulgar, obscene or demeaning expression directed at students, school officials, employees, officials and activity sponsors of sponsored or approved activities participating in a sponsored or approved activity or at other individuals will not be tolerated.

If an individual becomes physically or verbally abusive, uses vulgar, obscene or demeaning expression, or in any way interrupts an activity, the individual may be removed from the event by the individual in charge of the event. Law enforcement may be contacted for assistance.

Individuals removed from school premises have the ability to follow the board's chain of command and complaint policies should they choose to do so. The exclusion is in effect should the individual choose to appeal the decision of the superintendent. The term "individual" as used in the policy also includes students and employees.

If an individual has been notified of exclusion and thereafter tries to enter a school building or attends a sponsored or approved activity, the individual will be advised that his/her attendance will result in prosecution. The school district may obtain a court order for permanent exclusion from the school building or from future school sponsored or approved activities.

## **DISTRIBUTION OF MATERIALS REGULATION**

### **I. Guidelines.**

Individuals, including students, may have the right to distribute on school premises, at reasonable times and places, unofficial written material, petitions, buttons, badges or other insignia, except expression which:

1. is obscene to minors;
2. is libelous;
3. contains indecent, vulgar, profane or lewd language;
4. advertises any product or service not permitted to minors by law;
5. constitutes insulting or fighting words, the very expression of which injures or harasses other people (e.g., threats of violence, defamation of character or of a person's race, religion, gender, disability, age or ethnic origin);
6. presents a clear and present likelihood that, either because of its content or the manner of distribution, it will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or school activities, will cause the commission of unlawful acts or the violation of lawful school regulations.

Individuals wishing to distribute materials for the purpose of fundraising should refer to policy 504.5. Distribution on school premises of material in categories (1) through (4) to any student is prohibited. Distribution on school premises of material in categories (5) and (6) to a substantial number of students is prohibited.

### **II. Procedures.**

Anyone wishing to distribute unofficial written material must first submit for approval a copy of the material to the building principal at least twenty-four hours in advance of desired distribution time, together with the following information:

1. Name and phone number of the person submitting request and, if a student, the homeroom number;
2. Date(s) and time(s) of day of intended display or distribution;
3. Location where material will be displayed or distributed;
4. The grade(s) of students to whom the display or distribution is intended.

Within twenty-four hours of submission, the principal will render a decision whether the material violates the guidelines in subsection I or the time, place and manner restrictions in subsection III of this policy. In the event that permission to distribute the material is denied, the person submitting the request should be informed in writing of the reasons for the denial. Permission to distribute material does not imply approval of its contents by either the school, the administration, the board or the individual reviewing the material submitted.

If the person submitting the request does not receive a response within twenty-four hours of submission, the person will contact the building principal's office to verify that the lack of response was not due to an inability to locate the person. If the person has made this verification and there is no response to the request, the material may be distributed in accordance with the time, place and manner provisions in subsection III.

## **DISTRIBUTION OF MATERIALS REGULATION**

If the person is dissatisfied with the decision of the principal, the person may submit a written request for appeal to the superintendent. If the person does not receive a response within three school days of submitting the appeal, the person will contact the superintendent to verify that the lack of response is not due to an inability to locate the person. If the person has made this verification and there is no response to the appeal, the material may be distributed in accordance with the time, place and manner provisions in subsection III.

At every level of the process the person submitting the request will have the right to appear and present the reasons, supported by relevant witnesses and material, as to why distribution of the written material is appropriate.

Permission to distribute material does not imply approval of its contents by either the school district, the board, the administration or the individual reviewing the material submitted.

### **III. Time, place and manner of distribution.**

The distribution of written material is prohibited when it blocks the safe flow of traffic within corridors and entrance ways of the school or otherwise disrupts school activities. The distribution of unofficial material is limited to a reasonable time, place and manner as follows:

1. The material will be distributed from a table set up for the purpose in a location designated by the principal, which location will not block the safe flow of traffic or block the corridors or entrance ways, but which will give reasonable access to students.
2. The material will be distributed either before and/or after the regular instructional day.
3. No written material may be distributed during and at the place of a normal school activity if it is reasonably likely to cause a material and substantial disruption of that activity.

### **IV. Definitions.**

The following definitions apply to the following terms used in this policy:

1. "Obscene to minors" is defined as:
  - (a) The average person, applying contemporary community standards, would find that the written material, taken as a whole, appeals to the prurient interest of minors of the age to whom distribution is requested;
  - (b) The material depicts or describes, in a manner that is patently offensive to prevailing standards in the adult community concerning how such conduct should be presented to minors of the age to whom distribution is requested, sexual conduct such as intimate sexual acts (normal or perverted), masturbation, excretory functions, and lewd exhibition of the genitals; and
  - (c) The material, taken as a whole, lacks serious literary, artistic, political or scientific value for minors.
2. "Minor" means any person under the age of eighteen.

**DISTRIBUTION OF MATERIALS REGULATION**

3. "Material and substantial disruption" of a normal school activity is defined as follows:
  - (a) Where the normal school activity is an educational program of the district for which student attendance is compulsory, "material and substantial disruption" is defined as any disruption which interferes with or impedes the implementation of that program.
  - (b) Where the normal school activity is voluntary in nature (including, without limitation, school athletic events, school plays and concerts, and lunch periods), "material and substantial disruption" is defined as student rioting, unlawful seizures of property, widespread shouting or boisterous demonstration, sit-in, stand-in, walk-out, or other related forms of activity.
  - (c) In order for expression to be considered disruptive, there must exist specific facts upon which the likelihood of disruption can be forecasted including past experience in the school, current events influencing student activities and behavior, and instances of actual or threatened disruption relating to the written material in question.
4. "School activities" means any activity of students sponsored by the school and includes, by way of example but not limited to, classroom work, library activities, physical education classes, official assemblies and other similar gatherings, school athletic contests, band concerts, school plays and in-school lunch periods.
5. "Unofficial" written material includes all written material except school newspapers, literary magazines, yearbooks, and other publications funded and/or sponsored or authorized by the school. Examples include leaflets, brochures, flyers, petitions, placards and underground newspapers, whether written by students or others.
6. "Libelous" is a false and unprivileged statement about a specific individual that tends to harm the individual's reputation or to lower him/her in the esteem of the community.
7. "Distribution" means circulation or dissemination of written material by means of handing out free copies, selling or offering copies for sale and accepting donations for copies. It includes displaying written material in areas of the school which are generally frequented by students.

V. Disciplinary action.

Distribution by any student of unofficial written material prohibited in subsection I or in violation of subsection III may be halted, and students may be subject to discipline including suspension and expulsion. Any other party violating this policy may be requested to leave the school property immediately and, if necessary, local law enforcement officials will be called.

VI. Notice of policy to students.

A copy of this policy will be published in student handbooks and posted conspicuously in school buildings.

**TRANSPORTING STUDENTS IN PRIVATE VEHICLES**

Generally, transporting students for school purposes is done in a vehicle owned by the school district and driven by a school bus driver. Students may be transported in private vehicles for school purposes. It is within the discretion of the superintendent to determine when this is appropriate.

Individuals transporting students for school purposes in private vehicles must have the permission of the superintendent and meet all applicable requirements set by the district. Private vehicles will be used only when:

1. The vehicle is in good condition and meets all applicable safety requirements;
2. The driver possesses a valid driver's license;
3. Proof of insurance has been supplied to the superintendent and insurance satisfies the minimum coverage requirements for driving personal vehicles in the State of Iowa; and
4. When the parents of the students to be transported have given written permission to the superintendent.

The school district assumes no responsibility for those students who have not received the approval of the superintendent and who ride in private vehicles for school purposes. If transportation is not provided by the school district, or if transportation provided by the school district is declined by the student or parent/guardian, then the responsibility and corresponding liability for transportation for school purposes shall rest solely with the student and parent/guardian.

This policy statement applies to transportation of students for school purposes in addition to transporting students to and from their designated attendance center.

The Board will permit school equipment to be loaned to staff members when such use is directly related to their employment and to students when the equipment is to be used in connection with their studies or extra-curricular activities. Proper controls will be established to ensure the borrower's responsibility for, and return of, all such equipment.

When any school equipment is to be used at a school site or in a school building, appropriate school personnel shall operate or supervise the use. Where a cost is involved, it shall be paid by the organization using the equipment.

## UNMANNED AIRCRAFTS – DRONES

The following policy applies to the extent not preempted by federal or state regulatory jurisdiction regarding unmanned aircrafts. For purposes of this policy, the term “unmanned aircraft” means an aircraft that is operated without the possibility of direct human intervention from within or on the aircraft.

The *Twin Rivers Community School District* believes in maintaining the safety, security, and privacy of students, employees, and visitors. In keeping with this belief, the use or possession of unmanned aircrafts is prohibited on district property or in the space above the property that reasonably can be considered part of the district property.

The superintendent may make an exception to this policy in specific cases where the circumstances warrant such exception. In such situations and prior to approval, unmanned aircraft operators shall:

- Supply proof of insurance meeting liability limits established by the district;
- Present appropriate registration and authorization issued by the Federal Aviation Administration (FAA);
- Sign an agreement holding the district harmless from any claims of harm to individuals or damage to property; and
- Meet additional requirements as determined appropriate by the district.

If the unmanned aircrafts are operated as part of the district curriculum, prior to adoption into the curriculum, district employees shall work with district administration to ensure the appropriate insurance, registration, and authorizations are in place.

Unmanned aircrafts shall be operated in accordance with Iowa High School Athletic Association and Iowa Girls High School Athletic Union policy.

Failure to abide by this policy may result in local, state, and federal penalties if applicable.

***NOTE: The use of unmanned aircrafts is an unsettled area of the law. There is overlap with federal and state regulations and as such, there is the potential for challenge associated with the enforcement of the policy. Districts should, as with the adoption of any new policy, work with the district’s legal counsel to determine whether, when, and to what extent a policy on unmanned aircraft should be adopted at the local level.***

***NOTE: Districts who wish to approve the use of drones on school property, as part of the curriculum or for other purposes, should consult with the district’s insurance carrier prior to approval and operation. Most general liability policies have an exclusion for aircraft liability and the district would likely need additional liability coverage for the operation of drones. If you are a member of the IASB Safety Group, effective July 1, 2016, your policy with EMC automatically includes liability coverage for bodily injury and property damage caused by drones. However, coverage is not currently available for claims related to violation of privacy.***

***NOTE: Districts should be aware of the FAA unmanned aircraft safety guidelines, which include guidelines such as flying below 400 feet and not flying within 5 miles of an airport unless the airport and control tower have been contacted prior to flying. For a complete list of the guidelines, please visit the “Model Aircraft Operations” section of the FAA website, located at <http://www.faa.gov/uas/modelaircraft/>.***
